

CASE STUDY

About Bento

Bento is transforming the oral care benefit landscape by offering flexible, modern dental benefit options that provide significant cost savings for any business, regardless of size or budget, and one that employees value.

Moving to a self-funded platform powered by Bento was a great move for RST Thermal. With Bento's patented technology solution, employers, employees and dental care providers are electronically connected on a common platform, where all data is easily accessible and available in real-time. Members get access to an award-winning App and Concierge Service Team for a fantastic benefit experience!

The Bento Difference

- Customized plan options tailored to the needs of the organization
- Replicate existing plan offerings with lower costs and better experience
- Savings of over 20% compared to traditional insurance offering
- Easy and quick enrollment process
- Access to a nationwide network of over 360,000 dentists
- Pay for claims as they are incurred - no premiums!

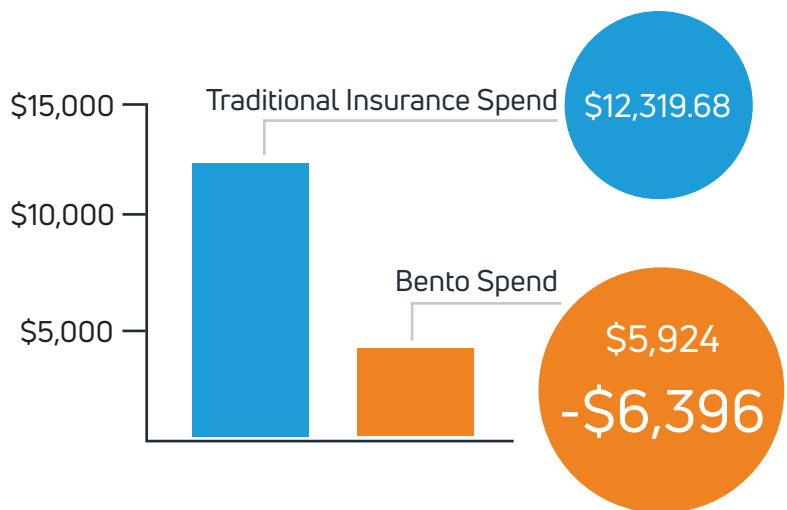

"Bento helped us save big! It was easy to replicate the previous dental benefit offering without any hassles, with huge cost savings for us. We have a small team, with a limited budget for benefit offerings, and Bento was the perfect solution for us."

- Maryellen Hickey, RST Thermal
